

Congratulations! Your child has entered the two year class. This is a major milestone for your child. We would like to welcome you and thank you for allowing us to provide quality child care for your child.

This class will be geared towards more structured social and cognitive skills. We will cover reciting numbers consecutively. We will focus on the alphabet, primary colors, shapes and a few of our zoo friends. We will enhance your child's listening skills along with following directions. The classroom setting is structured to better prepare your child for the next class they will be moving to.

Emphasis will be put on large and small motor skills. Daily story time will enhance listening skills and center time will enhance learning through play. We will introduce crayons and using art supplies.

This class is also designated to introduce your child to the potty. If you are not ready for your child to be potty trained, please let us know. To successfully help your child, we will need to work closely with you on the method or approach you are using at home. We prefer to use the method that you have chosen, so that the child is not confused while transitioning. Please feel free to participate in any aspect of the class. We welcome you to drop in at anytime. We'd love to have you as a chaperone on a field trip or stop by to read a story to the class.

We realize that every child is different and they learn at their own pace. We will introduce ideas and different learning concepts as each child is developmentally ready.

Helpful Reminders

For all field trips there will be permission slip that has to be filled out and signed before your child can leave the premises. You will be made aware in advance if we do have field trips so you can decide if you would like to chaperone.

A medicine form (located in the front lobby area) is needed before we can administer any medications, diaper ointments or any form of first aid. This is a DSS regulation.

We will continue to use sippy cups in this class. However we will also introduce them to drinking from a cup. This will also help with their gross motor skills

What your child will need:

- Pull-ups
- Box of tissue
- Hand sanitizer
- Sippy cup
- A blanket and bottom cover for nap time (they should be taken home on Fridays, washed and returned on Mondays)
- Two changes of seasonal clothing if still in pull-ups.
- Three changes of seasonal clothing if your child is transitioning to underwear.

Your child's clothing should consist of 2- 3 set of the following- shirt, pants, underwear & socks

Please be sure to check your child's cubby daily for soiled clothing. **Please do not dress your child in onesies or belts. These items make it very hard for your child to potty without accidents.**

We want your child to be happy, comfortable and safe during their learning experience here at Minds in Motion. We have an open door policy here so please drop in anytime. We are with your child during the most active time of the day. We would like to partner with you so that together we can make their daily learning experiences fun, as well as educational.

Thank you for allowing us to care for your child!
